

 VENDA STA

Website Pro

WordPress hosting on
Google Cloud Platform

Build Google-fast WordPress sites for any business

Website Pro hosts your clients' WordPress sites with the most trusted source on the internet—Google Cloud Platform. This state of the art infrastructure means your sites will be secure and protected, be Google-fast, and scale automatically. Website Pro gives your agency the power to build robust WordPress sites for any business.

1 One-click WordPress setup

With Website Pro's one-click setup wizard, anyone can set up or import a site within minutes! Eliminate the technical backend work required to set up your WordPress hosting, and get back to selling and designing compelling websites.

2 World-class hosting with Google

Hosted on the Google Cloud Platform, enjoy world-class and automated storage, speed, and security. Never deal with another server catastrophe again—gain peace of mind knowing your sites are hosted with the most trusted source on the internet.

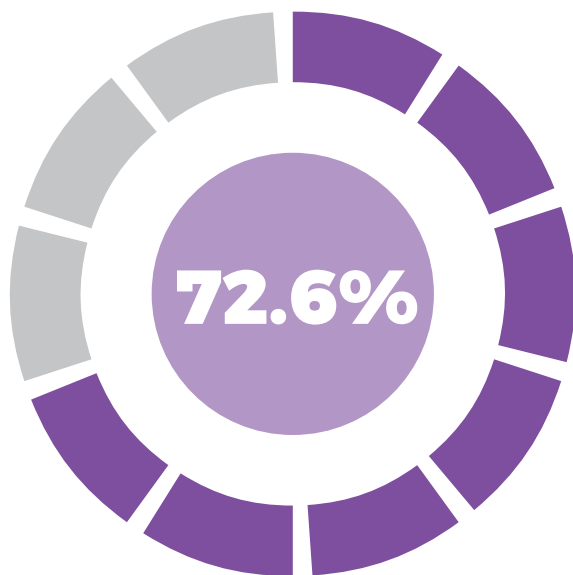

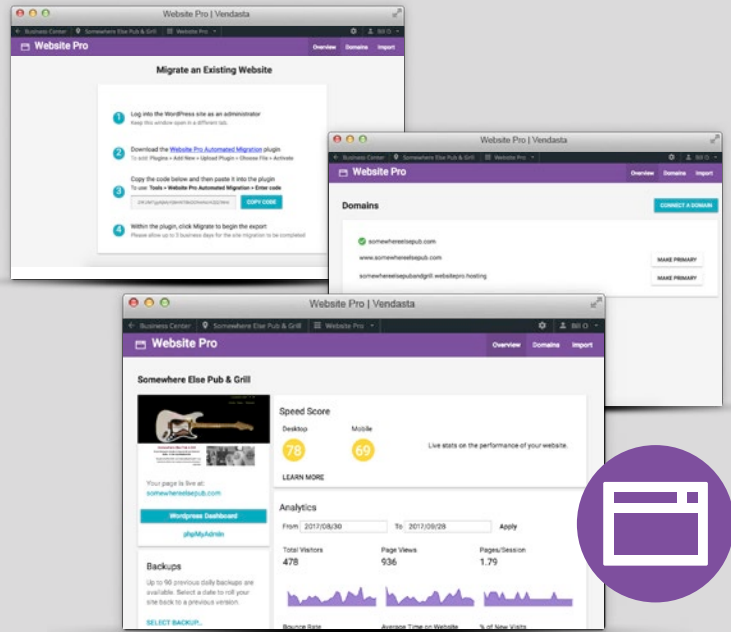

3 Fully integrated to drive engagement

Harness the power of the Vendasta platform to offer the complete website solution. One login gives your clients access to built-in reporting and dozens of complementary digital products and services.

Features:

- Daily backups
- Developer tools
- Free imports
- Free SSL certificates
- Free subdomain
- Unmetered page views/visitors
- Built-in reporting
- Easy one-click setup
- Managed WordPress hosting

Website design, hosting, and maintenance accounts for 72.6 percent (\$61.4B) of the total spend on digital services.

Get a piece of that pie.
