# Listing Sync

Online Business Listing Management

## Get accurate, get found.

Accurate business listings help search engines and consumers find local businesses online. The problem is that you don't have the time to create and maintain dozens of business listings.

Listing Sync gives you one place to create and sustain accurate business listings across an established network of listing sites.

### 1 Generate and fix business listings with one click

Build a presence on an established network of over 70 search engines, social networks, business directories, and more!

### 2 Make unlimited updates from one place

With Listing Sync, you have the power to manage all of your business information from a single dashboard. Give your customers the guarantee they will always see the most up-to-date information when they search for your business.

### 3 Protect listings from changes by third parties

Competitors, data aggregators, and other third parties can manipulate your business listings without warning. Listing Sync gives you peace of mind by automatically re-establishing the accurate data if anything changes.

4

## Sync to Google, Facebook, and Twitter for no extra charge

You read that correctly—with Listing Sync, you can instantaneously update your business listing info on these three online powerhouses for no additional fee.
