Pagevamp - a quick intro and Demo

Pagevamp builds a beautiful website **in seconds** using your client's Facebook Page content

Updates **automatically** from your client's Facebook Page

Mobile-optimized

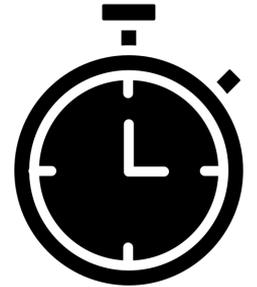

Why Pagevamp?

Cost - At Vendasta, Pagevamp subscription for a site costs only US\$ 6 per month (and US\$ 8 per month for Grey Label Editor), giving you a lot of room to have high profit margins.

Time - Once you have your client's Facebook Page URL, it takes just a few minutes to create a website through Pagevamp. [Here's how.](#)

Why Pagevamp?

User friendly experience - Pagevamp's user friendly website editor means that you can easily hand over the website editing to your clients.

Effective sales pitch - Pagevamp allows you to pitch a finished website instead of just pitching the concept of a website.

How partners use Pagevamp?

Complete offering: Partners add Pagevamp into their portfolio to make their offering appear more 'complete' and 'tangible' to their customers.

Engagement: The 14-day Free Trial creates a sales hook by giving clients an opportunity to experiment with their website.

Interim website: Partners quickly provide clients with an interim website through Pagevamp, while still work on a larger, custom website solution.

Partner Success

The New Grey Label Editor

We've launched our **Grey Label Editor** to give you more flexibility in setting prices for your customers. Activating this editor means:

- Pagevamp branding will be removed from your client's website footer
- Your clients can manage their website by logging into the Grey Label Editor (This editor does not contain Pagevamp branding)
- Pagevamp will not send any messages to your clients

[Here](#) is how you can activate the Grey Label Editor through Vendasta.
